The Sky's the Limit for Your Projects!

Auto-split of Large Quilting Border Patterns

Create beautiful quilt borders and sashing with unmatched precision. Simply put in your dimensions and the Venture does the necessary measurements for you. It matches the corners and then calculates the middle for a complete frame.

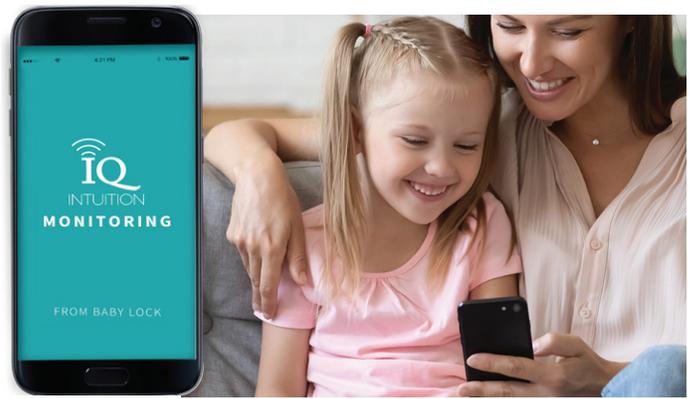

New Thread Spool Diagram on Screen

The thread spool indicator diagram shows which spool colors need to be changed or threaded for a design. They also alert you to which spools need attention if an error such as a thread breakage occurs.

10 Needles

With 10 needles available, enjoy continuous embroidery. No need to stop and change your thread for each color change. Simply set and walk-away.

IQ Intuition™ Monitoring App

Keep track of your project's progress with this convenient feature that alerts your phone when the bobbin needs to be changed, if a thread breaks, if a thread needs to be changed and when stitching is done. (Free smart phone app for download is required).

Perfect Positioning

The NeedleCam™ Digital Camera lets you see from the needle's point of view, so you know exactly where the needle will drop. Also, you can use the Perfect Positioning stickers included with your Venture to place every design with extreme precision.

IQ™ Designer

Create your own designs with ease. Draw directly on the screen, scan in your favorite line art or upload an existing file. Your art will be automatically converted into an embroidery design!

170 Built-In Designs, 51 Built-In Fonts, 36 Decorative Fill Patterns

Make every project uniquely yours with a huge variety of built-in designs, decorative stitches, and decorative fills.

Color Visualizer

Choose from random, vivid, gradient and soft color palette, and watch as your design is transformed in an array of color combinations. Have a favorite color in mind? Pin it to the Color Visualizer, and the Venture will be sure to use it in the next set of color suggestions. Save favorite combinations.

On-Screen Design Text and Editing

With the Venture's editing features, you can combine, reposition, resize, rotate, mirror, alter design elements individually, or group them to easily move or edit them collectively. All this can be done right on the screen! Quickly increase embroidery designs 200% or shrink them to 60% of the original size, and your stitches are automatically recalculated. With multi-line text, character spacing, grouping and character insert capabilities, designing with the 51 included fonts has never been smoother!

USB Drives

With USB connectivity, you can easily import designs to your machine from a computer or flash drive.

Front Loading

The convenient bobbin system with a front-loading, vertical hook means you can change bobbins without having to remove your embroidery hoop.

Hobby to Home Business

Embroidery machines enhance productivity for entrepreneurs and hobbyists alike. Baby Lock's line of professional-grade machines can embroider larger, more intricate designs at high speeds and quickly finish multiple projects. Like other Baby Lock embroidery machines, the professional-grade models have smart, built-in features powered by IQ™ Technology. Additionally available are a wide variety of optional accessories designed for ease and productivity. These user-friendly features make it easy to take your creative journey to a new level.
