

eclipse_{sx}

SPECIAL EDITION SERGER

FOR THE LOVE OF SEWING

Introducing the Eclipse^{sx}

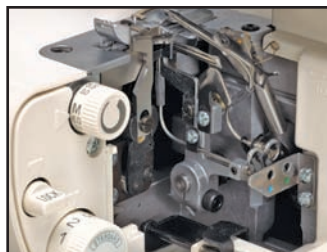

Don't let all those threads get in the way of your serging – take control with the Baby Lock Eclipse^{sx}. This amazing serger includes the Easy Glide Threading System, which allows you to pull your thread through the color-coded tubular loopers effortlessly. These tubular loopers will protect and guide your thread as you serge with either 4, 3, or 2 threads. And because the Eclipse includes differential feed, your serging is guaranteed to be versatile as well as precise.

For the love of sewing.

Easy Glide Threading System

Simply place thread through the looper threader and pull it through the tubular loopers. It's that easy. This system includes color-coded loopers instead of awkward threading guides or a confusing threading sequence.

Tubular Looper

A tubular thread path protects and controls the thread as it passes through the machine with no exposed threads. This easy-to-thread function handles standard and decorative threads with ease.

Differential Feed

This easy-to-use feature delivers a true 2 to 1 gathering ratio, eliminates puckering, and ensures complete fabric control.

4/3/2 Thread, Rolled Hem

Increase versatility and find the perfect stitch for every application by easily switching from 4 to 3 to 2 thread stitch functions.

Technology Features

- Easy Glide Thread System™
- Full-featured differential feed:
 - 2 to 1 Ratio – gathering
 - 3 to 4 Ratio – stretching
 - 4/3/2 Thread serging
