## Embroidery Machine

### Single-Needle, Free-Arm Embroidery

The Alliance is built to embroider items and three-dimensional spaces that are difficult for typical embroidery machines, such as inside pockets, embroiderable stuffed animals, or even shoes.

### Needle Beam for Embroidery

The Needle Beam highlights your needle position so you know exactly where your embroidery will start. That means perfect placement every time.

### TruView™ Designer

This high-definition TruView LCD color touch screen brings your embroidery designs to life. It displays more than 260,000 colors, providing a bold and vivid image to aid editing and perfecting each design.

### Quick-Set, Built-in Bobbin Winder

The Alliance bobbin system includes an automatic bobbin winder with an independent motor. The winder seat holds the thread in place and stops automatically when the bobbin is full.

### Large Embroidery Field

In addition to its ability to negotiate tight spaces, the Alliance can expand its reach to an 8" x 8" hoop, giving the dedicated home embroiderer or business startup room to create.

### Automatic Needle Threader

Get the stitching started with worry-free threading. The automatic needle threader puts your thread through the needle so you are ready to begin stitching.

### Convenience Features

- Built-in memory (1MB)
- Bobbin system: front loading, vertical rotary hook
- Quick-Set, built-in bobbin winder with independent motor
- Can use pre-wound bobbins (Class "L")
