

Jazz II

Sewing and Quilting Machine

Your second act starts here! You may think the Baby Lock Jazz II is the same old song at first, but it gets into the groove with its own melody right away. The Jazz II comes with everything a quilter would want, plus the features you need on a utility stitch machine to get the job done – all at an affordable price!

FOR THE LOVE OF SEWING

www.BabyLock.com

One Machine. Many Projects.

12" Creative Space

Making a larger quilt or working on a bulky project? No problem. The Jazz II has an expanded throat space that gives you plenty of room to work comfortably.

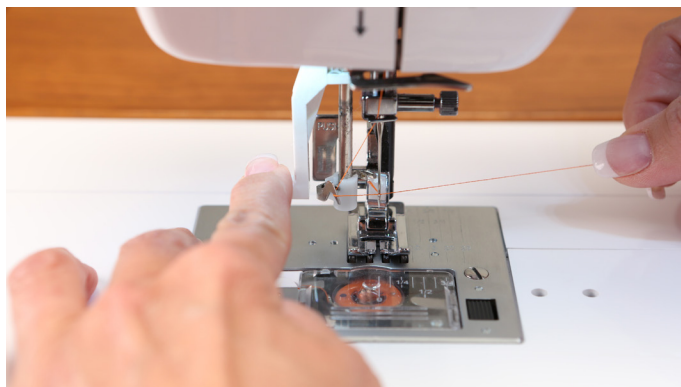

Programmable Needle Up/Down

You can choose to have your needle start in the up or down position, eliminating interruptions and making it easier to complete your projects faster. It's the perfect option for chain piecing and appliqué!

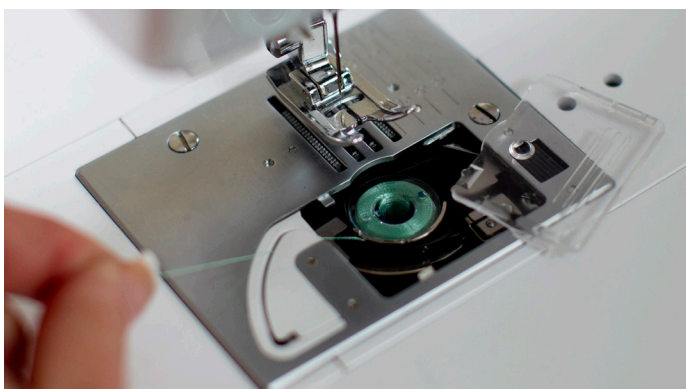

Large Reverse Lever

We've increased the size of a standard reverse lever, making it easier to get your hand on it without taking your focus off your work.

Built-in Needle Threader

With just a few simple motions, your needle is threaded and ready to use. There's no guesswork, no near-misses and no frustration!

Quick-Set/Top Loading bobbin

No more struggling with bobbin changes midway through a project. Simply drop in a new bobbin, pull your thread through the guide and Jazz does the rest.

Automatic Bobbin Winder

The built-in bobbin winder seat holds your thread in place and then stops automatically when the bobbin is full. It couldn't be easier.

Hands-Free Presser Foot

Keep both hands free for sewing large quilts. Start and stop your sewing without ever taking your eyes—or hands—off your project.

28 Built-In Stitches, 1000 Stitches Per Minute

With 28 built-in stitches, including a one-step buttonhole and a maximum stitch width of 7 mm, Jazz is well-equipped to take your creativity to new heights. Keep a quick and steady tempo of up to 1,000 stitches per minute.

Features and Specifications of the Jazz II
